

Sanctuary Pergolas.

We believe that each deck, patio, and outdoor area requires a unique design approach. That's why we custom build every pergola on-site, enabling us to get it perfect every time.

OUR PROOF

Testimonials

“The Best Choice”

After consulting widely we found Sanctuary Pergola's design and proposed materials to be the best choice.

Bruce specifically listened and understood what we were trying to achieve. We felt in good hands as he executed our wishes to a high standard of precision and care.

Sanctuary Pergolas own the project from beginning to completion, with a high level of integrity. We are thrilled with the result and our community is very admiring of the standard. We are looking forward to enjoying this special inside/outside space for many years to come with our family and friends. Thank you!

“Engineering and Build Methods are Brilliant”

Thank you team, it has been a complete pleasure working with you. Our 2 pagolas have completely changed the way we live adding additional outdoor living both when it's extremely hot and when it's raining. They have both coped with the early December rain.

Your build team did aa great job and were easy to work with. The engineering and build methods are brilliant.
